Sentry Equipment Corp Awarded Wisconsin ESOP Company of the Year

Employee-owners Gain Recognition through Concerted Pursuit of Success

Oconomowoc, Wisconsin – March 10, 2011 – Sentry Equipment Corp, a leading worldwide supplier of industrial sampling products and systems, was recently awarded the 2011 Employee Stock Ownership Plan Company of the Year. The award recognizes outstanding employee ownership members actively committed to developing the dignity and prosperity of individual employees through combined efforts.

“We are very pleased to have been selected as the winner of the 2011 Wisconsin ESOP Company of the Year, and to be recognized by the ESOP community for our efforts,” said Sherri McDermott, VP Human Resources. “We are proud to be an ESOP company and strongly believe in the power of employee ownership. Our success is due to that belief and the accomplishments of our employee-owners.”

Sentry Equipment Corp, a midsize employee-owned company located in Oconomowoc, Wisconsin, manufactures and services automated components for safely collecting representative samples of steam, water, bulk solids and liquids. These material samples are required for analysis by power generation and process industries worldwide in order to assure the quality and integrity of their processes and their products.

Sentry Equipment Corp will join 18 other state and regional ESOP Chapters in competing for the title of National ESOP Company of the Year. The winner of this prestigious award will be announced at The ESOP Association’s 34th Annual Conference in Washington, DC in May 2011.

The core cause of The ESOP Association is the belief that employee ownership will improve competitiveness, increase productivity through greater employee participation and strengthen America’s free enterprise economy.

###

Sentry Equipment Corp designs, manufactures and services systems and equipment used to sample gases, liquids, slurries and bulk solids; enabling safe, simple and repeatable samples for power generation and process industries worldwide. Recognized as a leader in sampling technology, Sentry Equipment Corp combined products and brands (e.g., Sentry®, Waters Equipment™, ISOLOK®, AquatiPro™ and Zeck Systems™) have been relied on by operational and analytical professionals for more than 85 years.
