## **Mike King Joins Sentry Equipment's Sales Team**

*Bulk material handling veteran anchors sampling equipment sales team*

Oconomowoc, WI – August 23, 2010 – As a result of continued growth, Sentry Equipment, a manufacturer of manual and automatic sampling systems and components, has hired Mike King to fulfill a dual role as direct sales representative to the Midwest, and regional sales manager to the South Central and Eastern regions of the United States.

“Mike comes highly recommended for his industry knowledge, integrity and dedication to helping his customers and representatives meet the challenges each unique sampling application brings,” says Bill Werra, Vice President of [Process Sampling Products](#). “We are excited about the addition and are confident his engineering knowledge and industry experience will be a valuable asset to building relationships throughout all levels of an organization.”

A resident of Shawnee, Kansas, King brings 15 years sales experience in bulk solids and liquids applications, having most recently served as the eastern regional sales manager with MAC Equipment. Additionally, King brings five years experience as a project engineer and milling supervisor for Cargill, and seven years as Sales Engineer at Hartsaw Equipment. He is an alumnus of Kansas State University and holds a degree in Milling Science and Management.

**Sentry Equipment Corp** manufactures and services equipment used to sample [gases](#), [steam and water](#), [liquids](#), [slurries](#) and [bulk solids](#), enabling safe, simple and repeatable samples for power generation and process industries worldwide. Recognized as the standard in sampling equipment, Sentry systems and components have been used by operational and analytical professionals for more than 85 years.
