Sentry Equipment Corp Featured on CNBC and *New York Times* for Using New L.E.D. Technology

Oconomowoc, Wisconsin (September 5, 2008) – CNBC, *The New York Times*, *LED Journal*, *LEDs Magazine*, and other media are reporting on the energy savings and other green aspects of the exterior/interior LED lighting fixtures installed in Sentry's new headquarters facility.

Earlier this year, Sentry Equipment was a finalist in the "Best Environmentally Friendly Project" category of the 2008 Real Estate Awards given by *The Business Journal*, a publication serving greater Milwaukee businesses.

In July, *The New York Times* published an article describing LED lighting's benefits to the company in terms of energy cost savings. The article gives a complete overview of this new breakthrough in lighting technology.

Recently, a new segment of "Powering the Planet" on CNBC featured Sentry's new facility, describing the long term cost savings and reduced maintenance obtained as a result of installing LED fixtures.

Sentry Equipment has been in business since 1924, and recently built a state-of-the-art facility in the Pabst Commerce Centre in Oconomowoc. Sentry is an employee-owned manufacturer of water/steam sampling components, sample panels and specialty heat exchangers, serving worldwide process and power generating industries. Sentry also manufactures samplers for gases, liquids, slurries and bulk solids. Since Sentry's

acquisitions of Bristol Equipment Company and Gustafson Automatic Samplers, Sentry has become the company with the broadest range of sampling solutions and the most sampling expertise in the world. For more information on Sentry Equipment Corp, please visit www.sentry-equip.com.
